

FOR PIGS, POULTRY & CATTLE

Fact Sheet.

SugaRich Processed Crisps

DESCRIPTION

Crisps (including snacks) that have been kibbled and packaging removed.

INGREDIENTS

Potato crisps and maize snacks.

ATTRIBUTES

A high energy, high oil feed useful in all livestock rations, where its use is to partially replace or complement cereals and high quality oils, crisps are particularly valuable in young pig rations. Please note that oil levels are lower than historical levels due to demand for "healthier low fat crisps"

TYPICAL ANALYSIS

PROXIMATE

Dry Matter	93.5
Crude Protein	7.0
Oil (A)	25.0
Oil (B)	27.0
Crude Fibre	2.0
NDF	7.0
Starch	48.0
Sugar	1.0
Starch + Sugar	49.0
Ash	2.0

ENERGY

AMEP (no)	18.5 MJ/kg
DE	18.5 MJ/kg
MEC (fresh)	19.0 MJ/kg
MEC (dry)	20.0 MJ/kg

MINERALS

Calcium	0.09%
Phosphorus	0.11%
Potassium	1.11%
Chloride	0.40%
Sodium	0.40%
Salt	1.00%

MAIN AMINO ACIDS

Lysine	0.23%
Methionine	0.06%
Cystine	0.25%
M + C	0.43%
Threonine	0.14%
Tryptophan	0.13%

FATTY ACIDS

C16	2.56
C18.0	1.03
C18.1	6.41
C18.2	13.3
C18.3	1.80

Declared levels of nutrients may vary from those listed & are subject to permitted limits of variation. As such they do not guarantee animal performance, which can vary due to factors apart from feed.
